Job Description:

Anaesthetist

The department/team

MSIUK (MSI) is a marketing focused, results oriented social enterprise. We develop efficient, effective and sustainable family planning programmes in the UK and overseas. The UK division provides services to men and women over 130,000 times a year.

In MSIUK the nursing and midwifery care we provide is unique. We believe that women and their families have the right to non-judgmental, holistic care provided in a personalised, safe, effective and caring environment.

Our care is based on best clinical evidence, provided by a skilled multi professional team, led by nurses and midwives who understand our specialist setting and uniqueness of each woman's experience: we are committed to promoting, protecting and supporting women's reproductive and sexual health rights.

As doctors, we draw on our own professional knowledge and the specialist knowledge of our setting to be 'with women' and advocating for women and for their options in all aspects of their care. We achieve this through our collaborative multi professional working, reflection and learning. We uphold our professional code and MSI UK values always and seek to advance and share the knowledge of our unique setting .

The primary responsibility of this role is to further MSI's Goal: The Prevention of Unwanted Births and its mission of ensuring the individual's right to: Children by Choice Not Chance.

The role

Reporting to the Clinical Director: Anaesthetic & Recovery , the purpose of the role is to deliver anaesthetic care to clients.

Key Responsibilities

Job Description:

Anaesthetist

General Anaesthetic

- Ensure that all clinical records have been completed to a satisfactory standard. This includes updating and maintaining the electronic patient record (EPR).
- Check all anaesthetic equipment prior to lists and prior to attending to each client.
- Provide adequate and safe anaesthesia appropriate to the medical history and physical condition of the individual client in accordance with MSI policies and guidelines.
- In doing so, ensure that the monitoring of client vital signs and overall wellbeing are carried out to the highest possible level of safety using observations, mechanical and electronic means appropriate to the procedure, using the equipment provided by MSI and using AAGBI minimum monitoring standards.

Local Anaesthetic

- When a client requiring local anaesthetic is treated in the main operating suite, to maintain a 'watching brief' but not necessarily become directly involved in client care unless so requested by a member of the team responsible for the client's wellbeing.

Conscious Sedation

- Use appropriate sedation as requested and within the guidelines provided by MSI.
- In doing so, ensure that monitoring of client vital signs and overall well-being are carried out to the highest possible level of safety using observation, mechanical and electronic means appropriate to the procedure, using the equipment provided by MSI and using the AAGBI minimum monitoring standards.

Emergency Situations

- Provide appropriate anaesthetic and monitoring to ensure client safety while undergoing any emergency procedure in consultation with the duty gynaecologist or other colleagues as appropriate (hospital arrangements for referral made available).
- Take an active role in facilitating referral to an NHS hospital if situation dictates that necessity.
- Ensure that resuscitation equipment is available, tested and appropriate and ensure, in consultation with the appropriate centre manager(s), that all team members have appropriate, up to date training.

Post-Operative Care

- Discharge clients if appropriate.
- See any client who is experiencing post-operative difficulties, irrespective of who performed original surgery or anaesthesia.
- Initiate appropriate remedial treatment.

Medicine

- Prescription and administration of medicines including RU486.

Administration

- Ensure that all relevant documentation is accurately completed and that client notes are legible and complete.
- Write or dictate letters for referral to other specialists/departments including GP letters as appropriate.
- Maintain all electronic patient records (EPR).

Professional Development

- Ensure that professional skills and knowledge are maintained to a high standard.

All MSI Reproductive Choices job descriptions are subject to a language neutrality test prior to approval and we're always looking for new ways to make our recruitment process as fair and unbiased as we can. Resourcinguk@MSIChoices.org

Job Description:

Anaesthetist

- Attend training and development activities as requested, including regular advanced life support and child protection training, providing evidence where training is undertaken outside MSI .
- If not FRCA registered, make arrangements to be mentored in own time by anaesthetist on specialist register, in line with RCA guidelines .

General

- Any concerns about medical practice or clinic safety should be communicated, in writing, to the relevant centre manager(s) promptly (incorporating detailed background for suggestion and relevant research references as appropriate).
- Any suggestions for improvements in clinical services to clients should be communicated in the same manner

Please note that you may also be required to carry out reasonable additional ad-hoc duties, at the request of your line manager.

Please read this document in conjunction with the Person Specification for the role.
