Welcome to One Call,
part of the Marie Stopes
UK family

Supporting men and women in their
reproductive health choices

Be part of our UK family

MSI Reproductive Choices UK employs over 500 people in the United Kingdom alone, all of whom are dedicated to delivering the highest quality abortion and vasectomy care.

We know that our most valuable assets are the people that work for us. By joining MSI Reproductive Choices, you'll become part of a committed team that works to make sure we provide the best possible care and support to our clients.

Who we are and what we do

MSI Reproductive Choices UK is a charity that has been helping women and men across the UK to choose if and when they have children for more than 40 years.

At One Call we provide services right through from bookings and pre-assessments to aftercare. At every point, One Call is able to offer a sensitive, non-judgemental counselling service to clients in the comfort of their own home.

No matter what time someone calls our 24-hour helpline, they'll receive a warm welcome from one of our professionals. They're all committed to giving the advice, support and care that is just right for each and every client.

One Call has been providing its telephone service since 2000, putting our clients first, respecting their dignity and confidentiality. We think that's why 98% of women who come to us give our services the highest possible satisfaction rating for being treated with dignity and respect.

Our history

In 1976 the family planning pioneer and co-founder of MSI Reproductive Choices International, Dr Tim Black CBE, saved the famous MSI Reproductive Choices clinic in central London, after he heard it was going to close down due to financial difficulty. MSI House, as it is now known, became the first of more than 600 MSI International clinics around the world.

More than 40 years later the organisation has grown into the world's largest provider of contraception and safe abortion services, with more than 12,000 team members in 37 countries. We still provide services from that first clinic, the spiritual home of our global organisation.

Our mission

Children by choice, not chance

A global partnership

There are more than 200 million around the world who don't want to get pregnant but can't get modern contraception, and each year more than 20,000 women die from an unsafe abortion with millions more injured.

We're proud to be part of the global MSI Reproductive Choices International global partnership, which is working to prevent the harm caused when women can't access contraception and safe abortion services.

MSI Reproductive Choices International serves women in 37 countries, mainly in developing countries across Asia and Africa. There are currently more than 25 million people around the world using a method of contraception provided by MSI Reproductive Choices International and in 2016 the organisation provided 3.6 million safe abortion services.
